DETAILED ACTION

Allowable Subject Matter

1. Claims 11-13 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claims 11-13 are found to be allowable because the prior art of record neither teaches nor reasonably suggests the recitations found therein, including the combination of elements as currently claimed. Applicant currently claims a very specific combination of elements to overcome a problem currently had. The combination provides for a hanger enabled to function in a manner not previously conceived. And while Examiner notes that some components of the hanger can be found in the prior art, the entirety of them, as well as their specific combination as detailed, is not taught or reasonably suggested in the prior art of record. Applicant's invention is this unobvious combination of components to solve a very particular and exact problem.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
